

The SORB[®] med „refill-pack“

SORB[®] med⁺

PROTECTIVE SOLUTIONS

We've been waiting a long time - now it's finally here!

The refill-pack for our SORB[®] med AV Antiviral Hand and Surface Cleansing Wipes

VIRUCIDAL-TESTED

Effective against viruses (including coronavirus, SARS-2, H1N1, influenza, hepatitis B and C, norovirus, HIV), bacteria and fungi. Suitable for refilling our popular bucket of SORB[®] med AV Surface Cleansing Wipes.

The wet wipes are made of a tear-resistant, mainly biodegradable material. One wipe disinfects **ONE SURFACE OF approx. 0.6m²** and requires only a very short contact time.

Advantages

- virucidal and antibacterial
- more environmental friendly due to less packaging
- 225 pieces in a refill-pack high tear resistance
- low odour
- short application time

order now!

As of now SORB[®]med hand disinfection is VAH-listed!

Our disinfectant therefore meets the requirements of EN 1500 and the VAH for a product for hygienic hand disinfection; i.e. that nothing stands in the way of its use in medical areas!

With our **SORB[®]med disinfectant** you are on the safe side in the fight against viruses and bacteria everywhere! With increased ethanol volume content of 85.5%.
